

SH ENGINEERING

Design , Manufacture and Reconditioning Service of Machine Tools

Know Us

SH Engineering is one of the well-known names in industry, specializing in **manufacturing and supplying** a comprehensive range of **Special Purpose machine, Mechanical Components, Machinery Parts, Machine Tools, CNC Machines and many more**. We are also reckoned for providing authorized **Repair & Maintenance Services, Mechanical Services and Machine Design Services**. The company came into existence in the year 2004 as a sole proprietorship firm. The products we offer are designed and developed keeping the specifications of clients in mind. Our experts manufacture them using optimum quality raw material, which we procure from the trustworthy vendors of industry. Furthermore, to offer our services, we have with us specialized experts, who provide solutions as per details specified by the clients.

PRODUCTS

Portable boring machine

SH Engineering is one of the renowned portable boring machine manufacturers in India. We have done a lot of research and development works to design and develop this most advanced line boring machine. This machine is unique of its kind and appreciated for its unique design, functionality and robustness. Portable Boring Machines are used for concentric boring of holes on Scrapper Hitches, metal structures, Tractors, Excavators, machine components etc –

Models **PLBM BORING MACHINE**
BOROMATIC 3000(SHE-BL-3000)

Hydraulic cylinder repair bench

Hydraulic Cylinder Repair Bench provides a secure platform for disassembling, servicing and reassembling hydraulic cylinders. The SHE-HCRB-7000 provides hydraulic assist to remove and reinstall the piston assembly.

Machinery Parts

We are into manufacturing and supplying wide range of Machinery Parts that are dimensionally accurate in nature and are highly durable. Our product range includes CNC Spare Parts and different others. We offer them in different dimensions and are efficient in performance.

- CNC spare parts
- Machine spare parts

Mechanical Components

We are counted amongst the leading manufacturer and supplier of functionally advanced range of Mechanical Components. Our entire product range is valued for high strength and is dimensionally accurate in nature.

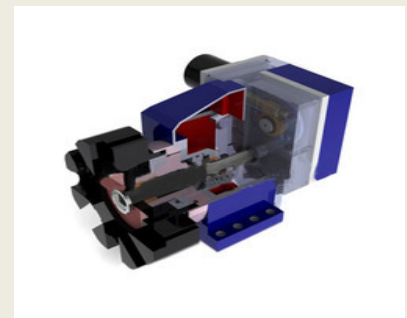

- Ball Screws
- Precision Cross Tables
- Axis Cross Slides

Machine Tools

We are leading firms in the industry, engaged in manufacturing and supplying quality approved range of Machine Tools. Our product range includes SPM. We offer them in different technical specifications and can be customized as per the requirement of our clients

- Machine Tool Spindles
- Tool Turrets

SERVICES

Repairs & Maintenance Services

Quality being the prime concern, we are leading service provider in the industry, offering quality Repairs & Maintenance Services. Our entire services are implemented after the close co-ordination with our clients and at most affordable rates.

- On Site Repair Services
- Machine Tool Repair Services
- Installation Services
- Electrical Retrofitting Services
- Oil purification
- Commissioning Services
- CNC Machine Services
- Scraping Services
- Spindle Reconditioning Services

Being the leading names in the industry, we offer our clients timely executed range of Machine Building Services to our clients. Our entire services are accomplished in time and are implemented using modern machines and advanced methodologies. Our prime aim is to render utmost client satisfaction, and we are striving hard to maintain the same. Furthermore, we offer them at most affordable rates with customized solutions
